

Dixieline Meets the Challenge

Dixieline Lumber Company of Southern California is excited at the possibilities; now part of Pro-Build Holdings, a \$7 billion professional building materials supplier with nationwide coverage, Dixieline is ready to meet the challenges of custom home remodelers, contractors and large builders.

Currently operating 11 lumber and home centers, three distribution yards, and two truss-manufacturing facilities, Dixieline serves Imperial Valley, San Diego, Riverside and San Bernardino counties. A Colton, Calif., distribution yard actively extends its service area to include Los Angeles, Kern, Ventura, San Barbara and San Luis Obispo counties. To the east, Dixieline's El Centro truss manufacturing and lumber distribution yard regularly delivers to Yuma, Ariz.

The depth of Dixieline's lumber and building material products is unmatched in Southern California. From lumber, plywood and engineered wood products to trusses, builders' hardware and drywall, Dixieline is ready to meet the large-volume demands of the most active builders. With a fleet of 79 trucks and 57 trailers (at last count), Dixieline has invested heavily in the timely delivery of high-quality products and value-added services.

Truss facilities in Imperial and San Diego counties produce high-quality roof and floor trusses for remodels, multifamily dwellings, commercial buildings and tract homes. Highly skilled and experienced designers provide a support system that meets all building code requirements. A commitment to quality, well-engineered trusses and on-time delivery make Dixieline a top choice in component manufacturing.

Production milling and remanufacturing is a Dixieline specialty. For large custom home projects, tracts and multifamily construction, Dixieline works closely with contractors and builders for timesaving solutions. State-of-the-art milling facilities cut lumber to meet almost any demand. The scope of Dixieline's capabilities range from wood resurfacing, unit cutting and job packaging to creative interior and exterior design details such as crown mouldings, corbels and casings.

Through Dixieline's Custom Home Division, home plans are received, reviewed for distribution and delivered throughout Dixieline's major product divisions. From lumber, hardware and insulation to drywall, windows and cabinetry, Dixieline is prepared to deliver the whole-house package. A seasoned sales team is

available for on-site consultation and support. Dixieline recently introduced a window replacement program with a very focused customer satisfaction initiative. A knowledgeable staff fields all orders, delivery, installation and after-install communication ensuring the best possible satisfaction and results.

This initiative, along with over 90 years in the building industry, shows Dixieline's commitment to superior customer service. Whether it's a trade contractor or custom homebuilder, Dixieline's home centers and distribution yards supply a multitude of products to meet the demands of a diverse customer base.

Each Dixieline Lumber and Home Center operates a separate Contractors Office equipped to meet the unique requirements of the professional. There, Dixieline's most experienced employees are ready each morning to supply contractors the necessary products for early job starts. Questions about milling, product delivery, truss manufacturing and engineered wood products are answered by an inside sales representative who provides accurate and timely information.

If doors, windows and cabinetry are required, all stores have full-service Door & Window Showrooms along with Kitchen & Bath Design Centers in six locations. Special orders are a Dixieline area-of-expertise so customers are encouraged to ask about nonstocked items.

There's not much that Dixieline Lumber & Home Centers doesn't supply. Here is a list of the product categories found in every location:

- Landscape Maintenance
- Paint Supplies
- Safety Equipment
- Storage Solutions
- Tools – Hand, Power and Accessories

Dixieline sets a high standard for itself; a unifying goal to fulfill all product needs and service expectations for the building industry. With the support of Pro-Build Holdings and its network of building material suppliers, Dixieline along with the Pro-Build team, can grow to serve the greater needs of builders, large and small, throughout the U.S.

For large custom home projects, tracts and multifamily construction, contact the Outside Sales Team at 1-800-DIXIELINE (349-4354) or visit dixieline.com.
